

## CURRICULUM VITAE

THOMAS M. HAMM

Date of Birth: September 24, 1949

Place of Birth: Memphis, TN

Citizenship: U.S.A.

### Present Position:

Senior Staff Scientist  
Barrow Neurological Institute,

Adjunct Professor of Bioengineering  
Department of Bioengineering  
Arizona State University

### Business Address:

Division of Neurobiology  
Barrow Neurological Institute  
St. Joseph's Hospital and Medical Center  
350 West Thomas Road  
Phoenix, Arizona 85013

Business Phone: (602) 406-3731

E-Mail Address: THamm@chw.edu

## EDUCATION

Memphis State University, Memphis, TN	B.S.	1971	Physics, Mathematics
University of Tennessee, Center for Health Sciences, Memphis, TN	Ph.D.	1979	Physiology

Dissertation Title: Identification of the mechanical properties of skeletal muscle.

Dissertation Director: Lloyd D. Partridge, Ph.D.

## EMPLOYMENT AND PROFESSIONAL APPOINTMENTS

Postdoctoral Research Associate, University of Arizona	1979-1982
Research Associate, University of Arizona	1982-1984
Research Assistant Professor, University of Arizona	1985-1990
Staff Scientist, Barrow Neurological Institute	1985-1992
Director, Vivarium, Barrow Neurological Institute	1988-1998
Research Associate Professor, University of Arizona	1990-Present
Associate Staff Scientist, Barrow Neurological Inst.	1993-2006
Adjunct Professor of Bioengineering, Arizona State University	1999-2007
Clinical Partner Professor, Arizona State University	2007-2010
Senior Staff Scientist, Barrow Neurological Inst.	2006-Present
Center for Adaptive Neural Systems, Arizona State University	2008-Present

## HONORS

U.S.P.H.S. Postdoctoral Research Fellowship for neurophysiological studies in Department of Physiology Training Program, University of Arizona, 1979-1980.

U.S.P.H.S. National Research Service Award (individual) for studies on the physiology of the spinal cord with Dr. D. G. Stuart, 1980-1982.

U.S.P.H.S. New Investigator Research Award on "Properties and segmental actions of Golgi tendon organs," University of Arizona, 1982-1985.

National Academy of Science Interacademy Exchange Program. Selected to participate in interacademy exchange program with Bulgaria to visit laboratory of Professor A. Gydikov and attend Fifth International Symposium on Motor Control, May-June, 1985.

Selection as "Health Care Hero, Researcher/Scientist Category" by the Phoenix Business Journal, 2005.

## PROFESSIONAL SOCIETIES

American Association for the Advancement of Science  
American Physiological Society  
Society for Neuroscience

## SERVICE

### Intramural

1. Graduate Committee - Dept. of Physiology, University of Arizona, 1984-1985.
2. Institutional Animal Care and Use Committee - BNI, 1986-Present.
3. Institutional Animal Care and Use Committee, Chairman - BNI, 1988 - Present.
4. Selection Committee - U of Arizona, BNI Training Program in Motor Control Neurobiology, 1993 - 1996.
5. Tenure and Promotion Committee - BNI, 1994 - 2010.
6. Executive Committee, ASU IGERT program, Musculoskeletal and Neural Adaptations in Form and Function, 2000 – 2005.
7. ASU-BNI Neuroscience Program Committee – 2007 – present.

### Extramural

1. Invited reviewer for: Brain Research; Behavioral and Brain Sciences; Experimental Brain Research; Experimental Neurology; Journal of Neurophysiology; Journal of Neuroscience; Journal of Neuroscience Methods, Journal of Physiology.
2. Board of Co-Editors, Experimental Brain Research: 1992 - 2004.
3. Local Arrangements Committee - Society for Neuroscience, 1989.
4. Ad Hoc consultant, American Association for the Accreditation of Laboratory Animal Care, September 1991 - August 1994.
5. President, Southwest Association for Education in Biomedical Research, 1991 - present.

6. Technical Advisory Committee, Bioindustry Targeted Industry Study, Department of Community Affairs and Economic Development, University of Arizona.
7. Initial Review Groups, National Institutes of Health, NINDS; ad hoc, Neurology B1, 1995, 1997 – 1998; Special Emphasis Panels, Fellowship Panels 1998, 2000, 2004-2010 ; ad hoc, IFCN5/Sensorimotor Integration, 1999 – 2001, 2005, regular member, 2001 – 2003; ad hoc, Musculoskeletal Rehabilitation Sciences, 2005, 2010.
8. Arizona Bioengineering Platform Committee, Flinn Foundation and Battelle Memorial Institute, 2003-2007.

## TEACHING EXPERIENCE

### University of Arizona/Arizona State University

1. UA Physiology 480: Physiology, principally for Pharmacy students; 6-7 lectures on neurophysiology; 1982-1984.
2. UA Physiology/Anatomy 605/805: Neuroscience, for medical and graduate students; 1-5 lectures on principles for sensory neurophysiology, visual system; 1981-1988.
3. UA Neurology Neuroscience Review Course: For residents; lectures on topics in neurophysiology; 1982, 1984-1985, 1988-1990.
4. UA Physiology 602: Readings in Physiology, for graduate students; discussion sections in muscle fatigue (with Dr. D.G. Stuart); 1985-1986.
5. UA Exercise and Sports Sciences 695: Colloquium in Motor Control, for graduate students; one session in colloquium for 1986, 1990-1992, 1996, 1998, 2002, 2005.
6. UA Physiology 620: Graduate course in neurophysiology for non-neuroscience majors in Physiological Sciences Program; lectures, 1996 - 2000.
7. UA Graduate Training: Supervised the training of two graduate students, Sharyn Vanden Noven and Chun-su Yuan, under the direction of Dr. D.G. Stuart. Service on graduate committees of John M. Spielmann, Eric Alikpala, T. George Hornby, Douglas A. Keen, Rick Johns.
8. Undergraduate Training: Supervised Kelly Hallett, John Arthur in work for senior thesis projects, Arizona State University, 1992-1993, 1999-2000. Supervised Kalil Abdullah in research practicum, Arizona State University, 2005. Participant in Undergraduate Biology Research Program, University of Arizona, 1991-present.
9. ASU BME 598: Neurophysiology for Engineers/Systems Neuroscience, lectures; 2000-present.
10. ASU Graduate Training: Co-director of IGERT graduate training program in “Musculoskeletal and Neural Adaptations in Form and Function”. Service on graduate committees of Mallika Fairchild, Joe W. Graham, Addie Hicks, Jerry Tian.

### Barrow Neurological Institute

1. Neuroscience Nursing Graduate Program: lectures on nerve-synapse physiology; 1986-1990.
2. Neuroscience Lecture Course for BNI residents: lecture on spinal reflex systems; 1988.
3. Neurobiology Seminar Series: Critical discussion and presentation of research articles;

- 1985-present.
4. Postdoctoral Training: Dr. Martha L. McCurdy; 1988 - 1994; Dr. Zhong-Sheng Han, 1994 - 1995; Dr. Vladimir Turkin, 1995 - present; Dr. Mitchell Maltenfort, 1995 - 1999; Dr. Tamara V. Trank, 1996 - 1998.
  5. Neurobiology course for Neurology residents: selected sessions, 1991-present.

## RESEARCH GRANTS

### Principal Investigator

U.S.P.H.S.

1982-1985, NS/AM 17887, "Properties and segmental actions of Golgi organs," ca \$37,500/yr.

1986-2006, NS 22454, "Analysis of the recurrent Renshaw circuit," \$225,000/yr.

1992-1995, NS 30013, "Segmental and suprasegmental control of the foot and ankle," ca \$95,000/yr. Component of program project "Modification and control of motor system function," J.R. Bloedel, P.I.

### Co-Investigator

U.S.P.H.S.

1984-1985, NS 77888, "Organization of spinal motor pathways," (P.I. - D.G. Stuart) ca \$70-80,000/yr.

U.S.P.H.S.

2005-2009, NS054282-01, "CRCNS: Modeling neuromusculoskeletal alterations after spinal cord injury", R. Jung, Ph.D., P.I., ca. \$19,000/yr. (subcontract to T. M. Hamm). Work on this grant has continued to present on no-cost extension; a competitive renewal is planned.

N.S.F.

1986-1989, INT8520863, "Cooperative program in motor control," 6-person exchange with Bulgarian Academy of Sciences; (P.I. - D. G. Stuart; Co-investigators - A.T. Bahill, R.M. Enoka, Z. Hasan, R.M. Reinking) ca \$55,000.

## TRAINING GRANTS

### Co-Investigator

U.S.P.H.S.

1987-2003 T32 NS07309, "Training Program in Motor-Control Neurobiology," (Co-P.I.s - J.R. Bloedel and D.G. Stuart) ca \$96,500/yr.

1991-2001 T32 GM08400, "Graduate Training in Systems and Integrative Physiology," (P.I., W.H. Dantzler) ca \$118,000/yr.

NSF

2000-2005 NSF-DGE-9987619, Integrative Graduate Education and Research Training Program, "Musculoskeletal and Neural Adaptations in Form and Function," (P.I., J. He; Co-Directors, T. M. Hamm, M. Marzke, G. Stelmach), ca. \$125,000/yr.

Sponsor  
U.S.P.H.S.

1989-1991 F32 NS08773, "Function and organization of recurrent Renshaw system," Individual N.R.S.A. application, M. L. McCurdy.

1996-1998 F32 NS10341, "Control of motoneurons by spinal mechanisms." Individual N.R.S.A. fellowship, M. G. Maltenfort.

1998-1999 F32 NS10341, "Control of motoneurons by spinal mechanisms." Individual fellowship for third year of N.R.S.A., M. G. Maltenfort.

## SCHOLARLY PRESENTATIONS

### Seminars

Seminar at the Department of Biological Sciences, Emory University, February, 1985: "Organization of spinal motor nuclei: partitioning of Ia monosynaptic excitatory postsynaptic potentials to motoneurons."

Seminar at the Department of Neurophysiology, University of Amsterdam, June, 1985: "Synchronization of muscle afferents in the cat medial gastrocnemius muscle: implications for spike-triggered averaging."

Seminar at the Department of Physiology, University College, London, June, 1985: "Synchronization of muscle afferents in the cat medial gastrocnemius muscle: implications for spike-triggered averaging."

Seminar at the Department of Physiology, St. Thomas' Hospital Medical School, London, June, 1985: "Organization of spinal motor nuclei: partitioning of Ia monosynaptic excitatory postsynaptic potentials to motoneurons."

Seminar at the Department of Biological Sciences, Northern Arizona University, March, 1986: "Organization of spinal motor nuclei: partitioning of Ia monosynaptic excitatory postsynaptic potentials to motoneurons."

Presentation at "Doings in Motor Control" (University of Arizona): "Some Open-loop Experiments." September, 1986.

Presentation in "BNI History of Neurosciences Seminars" entitled "The Evolution of Thought on Spinal Pattern Generation." January 20, 1987.

Presentation at BNI Grand Rounds (with Dr. G. Bjotvedt and Ms. K. Wellik) entitled "The Program for Care and Use of Laboratory Animals at St. Joseph's Hospital and Medical Center: Resources and Regulation." May, 1989.

Presentation at Bulgarian Academy of Sciences entitled "Recurrent Inhibition to and from Motoneurons Innervating Functionally Dissociated Anatomical Synergists." Sofia, Bulgaria. June, 1989.

Presentation at "Doings in Motor Control" (University of Arizona): "The effect of recurrent inhibition on motoneuron synchronization during fictive locomotion". April, 1990.

Presentation at "Doings in Motor Control" (University of Arizona): "Recurrent inhibition of hindlimb motoneurons in the cat: morphological substrate and functional significance." March, 1991.

Presentation at "Doings in Motor Control" (University of Arizona): "Functional implications of the distribution of Renshaw recurrent inhibition." January, 1992.

Seminar, Department of Physiology, University of Arizona, "Organization of recurrent inhibition", March, 1993.

Presentation at "Doings in Motor Control" (University of Arizona): "Update on the

recurrent Renshaw system." June, 1994.

Presentation at "Doings in Motor Control" (University of Arizona): "Organization of spinal circuits for control of distal muscle of the cat hindlimb." March, 1996.

Seminar, Department of Physiology, Emory University, "Recurrent inhibition and the organization of locomotor activity in the mammalian spinal cord". September, 1997.

Seminar, Department of Physical Therapy, University of Illinois, Chicago, "Recurrent inhibition and the organization of locomotor circuits in the mammalian spinal cord." March, 1999.

Seminar, Section of Neurophysiology, University of Copenhagen, "Recurrent inhibition and the organization of spinal pattern generators." June, 1999.

Seminar, Arizona State University, IGERT seminar series, "Spinal pattern generators: insights from correlations between motoneuron activities." April, 2002.

Seminar, Department of Physiology, Emory University, "Synaptic inhibition of motoneurons during rhythmic activity." December, 2006.

#### Local Conferences and Symposia

Presentation at Neural Networks Workshop, University of Arizona, April 23, 1994, entitled "Simulation of recurrent inhibition in spinal motoneuron pools."

Moderator of break-out session on modeling and simulation in neurobiology, annual meeting of the Arizona Chapter Society for Neuroscience, Tucson, January, 1996.

Presentation at Engineering - Motor Control Conference, with M. G. Maltenfort and J. He, University of Arizona, August, 1996.

Organizer and moderator of symposium on motor control, annual meeting of the Arizona Chapter Society for Neuroscience, Phoenix, January, 1998.

Presentation in break-out session of first Annual ASU-BNI Neuroscience Symposium, November 4, 2006, "Synaptic inhibition of motoneurons during rhythmic activity."

#### National and International Conferences and Symposia

Symposium presentation (with Drs. R.M. Enoka and Z. Hasan) for NASPSPA conference entitled "The Neuromuscular Basis of Movement: Biomechanical Foundations, Reflexes, and Synergies." Scottsdale, Arizona. June, 1986.

Presentation at symposium on "Adaptive vs. Deterministic Motor Control Mechanisms" entitled "Recurrent Inhibition to and from Motoneurons Innervating Functionally Dissociated Anatomical Synergists." Goettingen, Federal Republic of Germany. June, 1989.

Invited open communication at XXXI International Congress of Physiological Sciences entitled "Synchronization of Motoneuron Discharge in Fictive Locomotion: The effect of Recurrent Renshaw Inhibition." Helsinki, Finland. July, 1989.

Participant in panel presentation ("Integrative actions of the mammalian spinal cord in movement control") at Neural Control of Movement Meeting, Marco Island, FL, April, 1993.

Presentation at "Alpha and Gamma Motor Systems Symposium" entitled "The use of coherence spectra to determine common synaptic inputs to motoneuron pools of the cat during fictive locomotion", at St. Thomas's Hospital and Medical School, London, July, 1994.

Presentation at "Motor Function & The Spinal Cord." Emory University, Atlanta, GA,

March, 1998.

Presentation at “Peripheral and Spinal Mechanisms in the Neural Control of Movement.” University of Arizona, Tucson, AZ, November, 1998.

Presentation at 15th Annual Meeting of Academy of Surgical Research entitled “The changing face of the animal rights movement”, Phoenix, AZ, September, 1999.

Presentation at “Plateau Potentials and the Repetitive Discharge of Motor Neurons” entitled “Investigating synaptic conductances and dendritic integration in motoneurons with impedance functions”. Boulder, CO, June, 2000.

Presentation at “Mechanisms of Plasticity and Disease in Motoneurons” entitled “Location and conductance of rhythmic inhibition in motoneurons during fictive scratching, with comparisons to Ia reciprocal inhibition”. Seattle, Washington, June, 2008.
